| • SSC at ZPHS school, Gondriyala | CGPA:9.3 |

PROJECT:

Major Project: Detecting the Diabetic Retinopathy

- This project focuses on using deep learning to find and classify diabetic eye disease by looking images.it uses special computer models called CNN and transfer learning.
- This work helps in making better tools for early detection and treatment of diabetic eye problems
- Achieved 85% classification accuracy on diabetic retinopathy stages using CNN and transfer learning, improving early detection

Technologies used: Python,ML,Deep learning,HTML,CSS.

TECHNICAL SKILLS:

- **Common skills:** Word, Excel, PowerPoint, Windows
- **Languages:** C, C++ ,Python(full stack)
- **Frontend Technologies:** HTML, CSS, Javascript
